

Summer Bridge Programs

A summer bridge program helps seniors better prepare academically and socially for college. Students may take 2 classes for about 6 weeks and earn credit, often for free (for example SLCC).

They are generally for first-generation college students, racial minorities, low-income and/or students with disabilities, but some are offered to all students.

Students in bridge programs have significantly higher college graduation/completion rates.

Here are some links to bridge programs in Utah. Talk to your counselor if you are interested.

[Utah State University](#)

[Salt Lake Community College](#)

[Utah Valley University](#)

[University of Utah](#)

[Weber State](#)

These are just a few offered, if the college you want to attend isn't listed talk to your counselor to see if that college offers one.
